

**A4 SHOE SIZING CHART - GIRLS**

When printing this document please measure the **TEST SCALE** below - it should measure exactly 100 mm.

If it does not, this means that your printer may have scaled the shoe sizing chart and you should not measure your feet as the chart will be wrong.

To ensure the chart prints correctly please check that scaling is set to none before printing.

**INSTRUCTIONS FOR USE**

This chart is for **GIRLS** shoes only.

To determine your correct size, place your heel on the chart where indicated and measure to the end of the longest toe. If the toe is between sizes then choose the larger size.

Be sure to leave shoes off when using this chart to determine your size.
